

2023 Taxes

Ratepayers will notice that the 2023 Taxes increased 5%. This is necessary to plan for future improvements. Taxes are collected to pay for capital expenditures such as new wells, new distribution systems, equipment purchases, and maintenance of the existing water system.

Main Line Flushing

System flushing of the water lines and fire hydrants will occur **October 13-31, 2023**. This is required so we can continue to maintain the supply of safe high-quality water. There should be no interruption of water supply. During a period of several days, there may be a taste and smell of chlorine in the water. The treated water will disinfect your water lines so the BFWD can ensure the freshest water possible.

Notice of Annual General Meeting

Date: April 09, 2023

Time: 7:00 pm

Main Water Shut Off Valve

Do you know where the Main Water Shut off Valve is in your house and where the main water shut off is located on your property line in the event of an emergency? In the event of a leak or a water break on your property, locating your shut off valve can make a difference in saving your home from water damage. The main water shut off valve should be clearly marked on your property so that it is visible and easy to find. Included is a notice with this newsletter please draw or describe in detail where the water shut off is located on your property and return it to our office via email or by mail. If you do not know where your water shut off valve is please contact our office at **250-367-0255** or by email at beaverfallswaterworks@gmail.com.

Thanks to everyone for their cooperation.
