

2019 Tolls

Ratepayers will notice that the 2019 Tolls increased 6%. To cover the costs of supplying water this is necessary, so the District can operate and maintain the system. Tolls cover such things as electricity to pump water, water sample lab analysis, staff wages, repairs and maintenance, government mandated audits and insurance.

Main Line Flushing

System flushing of the water lines and fire hydrants will occur **April 15-19 2019**. This is required so we can continue to maintain the supply of safe high-quality water. There should be no interruption of water supply. During a period of several days, there may be a taste and smell of chlorine in the water. The treated water will disinfect your water lines so the BFWD can ensure the freshest water possible.

Notice of Annual General Meeting

Date: April 25, 2019

Time: 7:00

Location: Montrose Community Hall Basement
490 9th Ave Montrose BC

Presentation of Financial Statements & Annual Reports
Landowners in the District are encouraged to attend to ask questions, comment on activities and inspect the Financial statements. We look forward to seeing you there.
There will be two (2) Trustee positions available to fill a 3-year term. Anyone interested in running for the position of Trustee must submit a completed nomination form to the Beaver Falls Waterworks District by 1:00 pm on Thursday April 11, 2019. Nomination forms are available at the Beaver Falls Waterworks District office during regular business hours (Tuesdays 9am-1 pm). Forms are also available by email. If you have any questions, please contact us at 250-367-0255 or by email at beaverfallswaterworks@gmail.com.

Water Quality

The District's drinking water comes from underground aquifers and is untreated. BFWD takes water samples from designated sites within the District and send them for regular testing of Total Coliform and E Coli. Any adverse results are reported directly by the laboratory to Interior Health as well as the BFWD. The testing results have shown that our water is good and within the requirements set out by the Canadian Drinking Water Quality Act.

We've Moved

We have moved our office to 1620 Scout Rd. It is now located in our pumphouse.

Sign up for Alerts

We encourage residents to sign up for alerts to receive notifications on water emergencies such as boil water advisories, waterline breaks or restrictions via email or text message on our website
www.beaverfallswaterworksdistrict.myruralwater.com

Call Before You Dig

Call before you dig to prevent accidents. BC One Call's toll-free number 1-800-474-6886 to request a utility locate when planting trees or digging on your property. Do not take chances; some utilities can be less than 6" deep.

Remember to Give Us A Call

If you are connecting, disconnecting your water line or installing irrigation systems, you **MUST** advise the Beaver Falls Waterworks as we will ensure our Certified Water Operator is present. This is for the safety of your drinking water.
